

## Human Computer Interaction Institute, CMU

# Audio, Video, Photo Release

### Thank you

Thank you for allowing us to spend time learning from you today. The data we gather will be an important tool for giving thousands of people a better experience during their cancer journey.

### May we have your permission?

This interview is being recorded on a voice memo and photographs/ videos will be taken as documentation. We require your written permission to use these recordings in our work.

### Private, internal use

We use these recordings as a “memory” to make sure we base our conclusions on an accurate understanding of your words and actions. If you agree to our private use of the audio/video recordings and photographs, in no circumstance would your words or image be used in a commercial setting without first contacting you for permission.

- ☐ Yes, I grant Jam+Yarrow permission to use photographs from this meeting for faculty and client [Ventana Medical Systems] presentations, and for their internal report on the project.
